Uncomplicated Front-Load Laundry Available Now From Amana Brand
New Amana® Tandem™ pair makes laundry simple again

BENTON HARBOR, Mich. (Oct. 18, 2010) – Throughout history, good things have always come in pairs – fish and chips, milk and cookies, wine and cheese – and the Amana® Tandem™ front-load laundry pair is no different.

The smart new laundry pair, available now, features uniquely designed Touch and Go™ controls that make popping in a load of laundry as simple as pressing a button. With a low price point, stylish design and so many great features, the Tandem™ laundry pair is bound to be your new favorite duo.

The sleek pair helps save time, space, money and the planet thanks to its simple but beneficial features. With a 4.0 cu. ft I.E.C. equivalent* capacity, the Amana® Tandem™ pair can accommodate large loads, helping consumers get more laundry done in less time. The well-designed duo is also stackable, which is a great option for anyone short on space. When it comes to saving money and the environment, the Amana® Tandem™ pair uses 73 percent less water and 76 percent less energy compared to conventional top-load washers. This can drop consumers' energy bill by as much as \$100 each year, saving \$1,000 in utility costs** over the product's lifespan.

“The Amana® Tandem™ pair gives you simplicity without taking away options,” said Carlos Johnson, senior brand manager, Amana®. “Whether you have a full load or just need to launder a single blouse on delicate – in your spacious laundry room or small studio apartment – the Amana® Tandem™ laundry pair is the duo that fits your needs.”

Both the Amana® Tandem™ washer (NFW7300WW) and dryer (electric NED7300WW and gas NGD7300WW) are available in white with an MSRP of \$649 each. The laundry pair can be purchased at retailers nationwide.
